

SAM SPITTING JUICE AGAIN

(Continued from page 1) for the fact that the bill has to be passed I would have been spared the mental anguish of publishing this article. Your committee having obtained sufficient assurance of reduction in insurance rates from the Underwriters proceeded at once to the office of the American LaFrance Fire Engine Company and assumed the role of Hebrew purchasing agents. The Mayor setting forth the stability of the City to purchase the engine on the basis of the Company's regular terms (1-4 cash and the balance three years) while Commissioner Mason between sobs pictured what a calamity it would be for Southern Pines to be deprived of both the fire engine and reduced insurance rates. Finally we came to the following agreement \$1500.00 cash upon delivery of engine and 11 equal annual installments of \$1,000.00 each, bearing interest at 10 per cent. They also presented us with a charge with one 40-gallon chemical tank valued at \$500.00 as additional equipment for our old fire truck and upon advice of our dentists condition refunded in full the expenses of our Committee's trip to Atlanta. The average annual payment will be \$1360.00 (\$1,000.00 principal at \$350.00 interest). Fireman's salary estimated at \$1200.00 will bring the total annual cost up to \$2560.00. Against this added burden the average taxpayers who are paying for this additional equipment will receive credit on their insurance ranging from 10 to 20 per cent, according to type of construction of buildings insured. Based upon the amount of insurance written in Southern Pines today this will mean a saving of about \$4,000.00 annually. This seems like a good proposition to your Mayor and Commissioners and we sincerely trust that you may approve of our action.
